**Calendar:** 04/02/08 1:30 p.m. - Room 447 ASM LOCAL GOVERNMENT

**Summary:** Existing law provides for the existence, in each county, of a local agency formation commission (LAFCO), an administrative body vested with the authority and responsibility to control the process of municipal expansion by overseeing local agency boundary changes, including the incorporation, annexation, and reorganization of cities and special districts. The LAFCO for each county reviews and approves or disapproves proposed local government changes of organization; and, under specified circumstances, the determinations of the LAFCO are subject to voter approval through the circulation of a signature petition and a subsequent ballot measure. This bill would impose on a committee formed to support or oppose a LAFCO proposal, as defined, requirements regarding the filing of campaign statements. The bill would require the committee to file monthly campaign statements from the time circulation of a petition begins until a measure is placed on the ballot or the committee is terminated. After a LAFCO proposal measure is placed on the ballot, the bill would require a committee formed to support or oppose the proposal to file those campaign statements required of other committees formed to support or oppose ballot measures under the Political Reform Act of 1974. This bill contains other related provisions and other existing laws.

**Calendar:** 04/30/08 1:30 p.m. - Room 447 ASM LOCAL GOVERNMENT

**Summary:** The Cortese-Knox-Hertzberg Act of 2000 requires the local agency formation commission in each county to review and approve or disapprove proposals for changes of organization or reorganization of cities and districts within the county. The legislative body of the affected local agency is authorized to adopt by resolution a proposal for a change of organization or a reorganization. At least 20 days before the adoption of the resolution of application for organization or reorganization, the legislative body is authorized to give mailed notice of its intention to do so to the commission and to each interested agency and each subject agency. All provisions in the act governing the time within which an official or the commission is to act are required to be deemed directory, rather than mandatory, except for notice requirements and the specified requirements for conducting a hearing in relation to an application to initiate proceedings. This bill would instead authorize the legislative body to give mailed notice of its intention to adopt a resolution of application at least 21 days before the adoption of the resolution to the commission and to each interested agency and each subject agency. The bill also would make a conforming addition to the exceptions to the requirement that the time within which an official or the commission is to act is to be deemed directory, rather than mandatory.

**Summary:** The Vehicle License Fee (VLF) Law establishes, in lieu of any ad valorem property tax upon vehicles, an annual license fee for any vehicle subject to registration in this state. Under existing law, the Controller is required to allocate VLF revenues in the Motor Vehicle License Fee Account in a specified order to, among others, each city that was incorporated from an unincorporated territory after August 5, 2004, but before July 1, 2009. Existing law also requires cities that were incorporated before August 5, 2004, be allocated additional VLF revenues in an amount determined pursuant to a specified formula. For purposes of this formula, existing law specifies that the population of a city that is incorporated before August 5, 2004, is that city's actual population, as defined, residing in areas annexed after August 5, 2004, but before July 1, 2009. This bill would require that cities that are incorporated from an unincorporated territory after August 5, 2004, but before July 1, 2014, be allocated VLF revenues. This bill would specify, for purposes of this formula used to determine additional VLF revenues for cities that were incorporated before August 5, 2004, that the city's actual population is the population residing in areas annexed after August 5, 2004. This bill contains other related provisions and other existing laws.

**Summary:** Existing law requires certain transportation planning activities by the Department of Transportation and by designated regional transportation planning agencies, including development of a regional transportation plan. Existing law authorizes the California Transportation Commission, in cooperation with the regional agencies, to prescribe study areas for analysis and evaluation. This bill would require the commission, by July 1, 2009, to adopt guidelines for travel demand models used in the development of regional transportation plans by certain transportation planning entities. The bill would require the Department of Transportation to assist the commission, on request, in this regard, and would impose other related requirements. **Summary:** The Cortese-Knox Local Government Reorganization Act of 1985 prescribes the composition of members of a Local Agency Formation Commission (LAFCO), and specifies the procedures for the selection of members for independent special district representation on the commission. This bill would increase from 2 to 3 the independent special district representatives seated on the Calaveras County Local Agency Formation Commission, and would require one member to be a permanent seat filled by a member of the Board of Directors of the Calaveras County Water District. **Summary:** Existing law makes it unlawful for any elected state or local officer, appointee, employee, or consultant to use, or permit others to use, state resources for a campaign activity, or personal or other purposes that are not authorized by law. Existing law also provides that the incidental and minimal use of state resources is not unlawful. This bill would expand these provisions to prohibit any elected official, officer, director, appointee, employee, agent, or consultant of any state or local agency, or any organization or association that represents local agencies that is funded, in whole or in part, by dues or other voluntary payments made by local agencies from using, or permitting others to use, state resources for a campaign activity, or personal or other purposes that are not authorized by law. **Summary:** Existing property tax law requires, in the event that a jurisdictional change affects the service area or service responsibility of one or more special districts, the board of supervisors of the county or counties in which the districts are located to negotiate any exchange of property tax revenues on behalf of the district or districts. This bill would authorize a fire protection district, as specified, to negotiate any exchange of property tax revenues on its own behalf when a jurisdictional change occurs that affects its service area or service responsibility.  
**Position:** Watch  
**Priority:** 2  
**Notes:** This bill would allow Fire Protection Districts to negotiate their own property tax exchange agreement in the event of an annexation or detachment, rather than the Board of Supervisors. It also provides the FPD with the right to terminate an annexation to a city if it does not approve the property tax exchange agreement. Negotiations are currently underway to find a less onerous solution to the FPD funding issue.

**Summary:** Existing law authorizes the local agency formation commission to approve the annexation of

unincorporated territory consistent with the planned and probable use of the property based upon the review of general plan and rezoning designations. Existing law prohibits subsequent changes to the general plan for the annexed territory or zoning that is not in conformance to the rezoning designations for a period of 2 years after the completion of the annexation, unless the legislative body of the city makes a finding that a substantial change has occurred in the circumstances that necessitate a departure from the rezoning in the application to the commission, as specified. This bill would instead prohibit subsequent changes to the general plan for the annexed territory or zoning that is not in conformance to the rezoning designations for a period of 5 years after the completion of the annexation.

**Position:** None at this time

**Summary:** Existing law, the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000, governs the procedures for the formation, change of organization, and reorganization of cities and special districts. That act also provides, unless otherwise determined by the local agency formation commission, that territory shall not be incorporated into, or annexed to, a city, if, as a result of that incorporation or annexation, unincorporated territory is completely surrounded by that city or by territory of that city, on one or more sides and the Pacific Ocean on the remaining sides. This bill would delete "completely" from this prohibition and thereby provide that, unless otherwise determined by the commission, territory shall not be incorporated into, or annexed to a city if, as a result of that incorporation or annexation, unincorporated territory is surrounded by that city or by territory of that city on one or more sides and the Pacific Ocean on the remaining sides.

**Calendar:** 04/01/08 9 a.m. - Room 437 ASM WATER, PARKS AND WILDLIFE

**Summary:** Existing law requires a city or county that determines a project, as defined, is subject to the California Environmental Quality Act to identify any public water system that may supply water for the project and to request those public water systems to prepare a specified water supply assessment. If no public water system is identified, the city or county is required to prepare the water supply assessment. Existing law requires, if a water supply for a proposed project includes groundwater, that certain additional information be included in the water supply assessment, including a detailed description and analysis of the amount and location of groundwater that is projected to be pumped and an analysis of the sufficiency of the groundwater from the basin or basins from which the proposed project will be

supplied to meet the projected water demand associated with the proposed project. This bill would require the water supply assessment include only the amount of groundwater projected to be pumped and the groundwater included in the sufficiency analysis that has been determined by the State Department of Public Health or a local health officer to meet standards applicable for the proposed use or that has been treated to the treatment standard applicable to the proposed use. By imposing new duties on cities and counties and local health officers with respect to that determination, this bill would impose a state-mandated local program. **Summary:** The California Environmental Quality Act (CEQA) declares legislative intent that all agencies of state government which regulate activities of private individuals, corporations, and public agencies which are found to affect the quality of the environment, give consideration to preventing environmental damage when regulating those activities. CEQA requires all lead agencies, as defined, to prepare an environmental impact report for any project which may have a significant effect on the environment. Existing law requires all project applicants and public agencies subject to CEQA to pay the filing fee for each proposed project, unless the project has no effect on fish or wildlife, the project is being undertaken by the department, or the project costs are payable to the department from specified sources. Existing law requires the Department of Fish and Game to impose and collect these filing fees, in prescribed amounts, to defray the costs of managing and protecting fish and wildlife trust resources. This bill would revise those exemptions from the payment of the filing fee to instead exempt a project that the lead agency has determined will have no effect on fish and wildlife, and also exempt from the payment of filing fee a project being undertaken by a public agency or the department.

**Summary:** Existing law authorizes various public entities, including special districts, to provide water service and regulate groundwater. This bill would enact the Santa Ynez Valley Water District Act. The bill would establish the Santa Ynez Valley Water District in Santa Barbara County. The bill would prescribe the composition of the board of directors of the district. The bill would specify the district's boundaries, powers, and purposes. The district would succeed to the powers, duties, responsibilities, obligations, liabilities, and jurisdiction of Improvement District No. 1 within the Santa Ynez River Water Conservation District, which entity would cease to exist. This bill contains other related provisions and other existing laws.

**Summary:** The Planning and Zoning Law requires a city, county, or city and county to adopt a comprehensive, long-term general plan for the physical development of the city, county, or city and county that addresses a number of elements, including, among other things, a housing and an open-space element. Existing law provides that the general plan may be adopted as a single document or as a group of documents relating to subjects or geographic segments of the planning area. This bill would require the general plan, and each of its elements to encompass a planning and projection period of at least 20 years, except for the housing element, and would require each element, except for the housing, conservati on, and open-space elements, to be updated at least every 10 years. The bill would require the housing element to be updated as specified, and would require the conservation element and the open-space element to be updated concurrently with the housing element. This bill contains other related provisions and other existing laws.

**Summary:** The Disaster Preparedness and Flood Prevention Bond Act of 2006, which was enacted by the Legislature and approved by the voters at the November 7, 2006, statewide general election, authorizes the expenditure of \$4,090,000,000 in bond funds for specified disaster preparedness and flood prevention projects. Those projects include projects for the evaluation, repair, rehabilitation, reconstruction, or replacement of levees, weirs, bypasses, and facilities of the State Plan of Flood Control; improving or adding facilities to the State Plan of Flood Control to increase levels of flood prevention for urban areas; reducing the risk of levee failure in the delta; and protection, creation, and enhancement of flood protection corridors and bypasses through specified actions. The bill would require the Department of Water Resources (department), when evaluating levees and facilities pursuant to a specified project, to include an evaluation of the risk of the levees and facilities failing due to a seismic event. In implementing the projects for the protection, creation, and enhancement of flood protection corridors and bypasses through specified actions, the bill would require the department to give priority for projects and expenditures that result in a systemwide reduction of flood risks and for projects that address the needs of disadvantaged communities, as the bill would define that term. A grant program that would provide bond funds to rehabilitate, reconstruct, replace, or improve existing flood levees, or construct new flood levees, or other management facilities that are a part of the State Plan of Flood Control would be required to comply with specified requirements. This bill contains other related provisions and other existing laws.

**Summary:** (1) The Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Bond Act of 2006, an initiative statute approved by the voters at the November 7, 2006, statewide general election, among other things, makes \$580,000,000 in bond funds available for improving the sustainability and livability of the state's communities through investment in natural resources. This bill would require the various departments that are to implement the provisions of the initiative, among other things, to develop and adopt guidelines and regulations, consult with other entities, conduct studies, and follow certain procedures for establishing a project, or grant or loan program implementing the initiative. This bill contains other related provisions and other existing laws.
