Thank you Lou Ann. Happy to walk through the math with Bill.

Bill, will connect with you to share details.

Greetings Bill and Jason,

Thank you for your interest in Contra Costa LAFCO.

Just to confirm, the *Reorganization of County Service Areas in the Unincorporated Alamo Area* is strictly a LAFCO issue. Also, regarding the number of Sheriff's staff is not specifically a LAFCO issue. We suggest you contact the Sheriff's Office for additional information.

Subject: Question On the Merging of the Police in Alamo

I am all for extra police in Alamo and the corresponding cost.

However, I am confused by the cost breakdown and the number of added deputies. My math based on the additional cost would add deputies for a total of 9, not seven. So either there is some new added expense, or this measure is turning into a profit center to fund other cities in the county. That is dead wrong.

Simple math

P-5 Roundhill extra cost is around \$400 per year and they have two dedicated deputies = $700 \times \$400 = \$280,000$ divided by 2 = \$140,000 per deputy.

P-2B extra cost is around \$400 per year and they have 3,231 (3400-169 already paying more) = $3,231 \times \$400 = \$1,292,400$ divided by 4 new deputies = \$323,100 per deputy. That is over DOUBLE the cost. Why? I already pulled out the \$67 per parcel $\times$ 3,231 households that pay for one deputy ($\$67 \times 3,231$) = \$216,477 .

Even at that rate, the cost for each new deputy = 6 additional people . $6 + 1 + 2 = 9$ deputies. And each new deputies should not cost \$216,000 per year.

I really want to know why or I will have to drive support to not approve the plan and I want more police. Thank you in advance for the explanation.
